Remove Unwanted Hair Growth Due to Polycystic Ovarian Syndrome (PCOS)

Hair growth in abnormal places is a common symptom for women with PCOS. PCOS is also linked to Type 2 diabetes. We are pleased to offer laser hair-removal therapy packages to help affected women manage this condition.

Choose one of three hair-removal packages. Each package includes your choice of two consultations with a PCOS lifestyle management specialist.

Laser Hair-Removal Treatment Packages (Choose One)

□ *15-Minute Package*

6 treatments of 15 minutes each for \$625 (\$550 if total paid in advance)

□ *25-Minute Package*

6 treatments of 25 minutes each for \$750 (\$650 if total paid in advance)

□ *60-Minute Package*

6 treatments of 60 minutes each for \$1075 (\$1000 if total paid in advance)

PCOS Lifestyle Consultations (Choose Two)

□ *Nutrition Education With a Registered Dietitian*

- Review medical history, labs, likes and dislikes, factors that may influence nutrition such as sleep, stress, time, finances, family and responsibilities.
- Personalize a method of meal planning that suits your lifestyle to best maximize your goals.
- Set and discuss short-term and long-term goals followed by practical and tailored strategies.

□ *Behavioral Counseling With a CREATION Health Therapist*

- Thoughtfully connecting from a whole-person perspective and empowering you to live well.
- Meaningful conversations about behaviors, thoughts, habits, and relationships.
- Develop a plan of care as it pertains to behavioral health while working toward your goals.

□ *Exercise Consultation With an Exercise Specialist*

- Have in-depth discussions regarding your body-composition assessment and strategies for maximizing your goals.
- Create a tailored exercise schedule and movement plan that suits your lifestyle and fits your schedule.
- Work together to set goals and an applicable approach to become successful.
